

Effortless floor cleaning without buckets.

The Bucketless Mopping System

A self contained system for routine maintenance of hard floor surfaces.

No bucket. No wringer. No problem.

Push button flow control applies solution only when needed. Locks open for large area cleaning

Anti-clogging filter for consistent solution delivery. Exclusive.

Rugged construction with six-month guarantee on solution dispensing mechanism.

Large tank opening makes filling easy.

Generous 52 oz. solution tank with filter means less time refilling. Cleans up to 7,000 sq. ft. per tank. Exclusive.

Translucent solution tank keeps solution level visible. Exclusive.

Angled cleaning head reaches into hard to clean corners. Exclusive.

Full width dispensing spreads solution over the whole mop for even cleaning in less time. Exclusive.

The microfiber damp pad will absorb up to seven times its weight in liquid. Non-abrasive. Hypoallergenic. Removes 98% of bacteria with just water alone. EPA recommended.

Weights only 7 lbs. with a full solution tank. That's comparable to a 32 oz. looped end mop and handle!

Launderable microfiber cleaning pad ensures maximum cleaning power.
